Our Mission & Vision

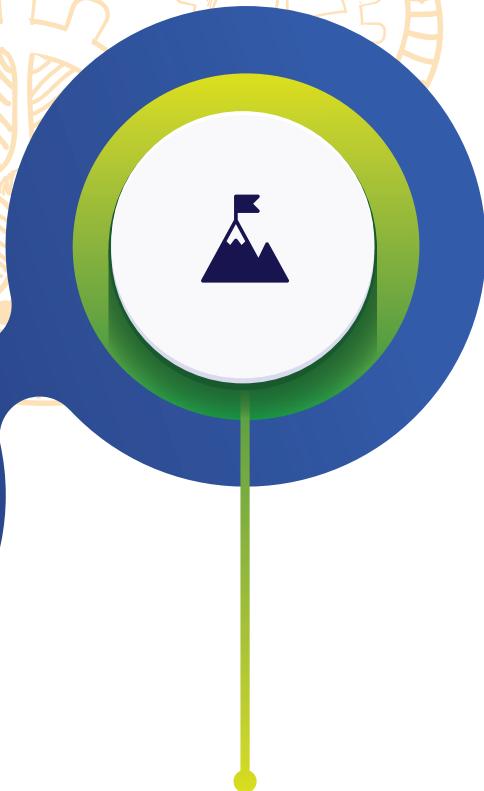

OUR VISION

Driven by "The Resonance of Excellence," our vision is to attain a level of excellence that not only stands as an achievement but creates a lasting and impactful effect, resonating in various ways across time.

OUR VALUES

At RBM, our values are the cornerstone of our success. We prioritize integrity, innovation, and collaboration, ensuring that every endeavor reflects a commitment to excellence, client satisfaction, and continuous improvement.

OUR MISSION

Our mission at RBM is to create a lasting impact on our clients, partners, and the entire industry, aiming to leave an indelible impression through our commitment to excellence.

Chairman's Message

Jay Bajrang Mani

1 Trusted Service Provider

2 Strategic Partnership and Innovation

3 Commitment to Quality and Safety

Founded in 1992, M/s-RBM INFRACON LTD stands as a trusted service provider in the rapidly evolving world of mechanical and civil services. Comprehending the intricacies of the industry, our skilled team, including mechanical and civil engineers, technicians, project managers, and tradespeople, is equipped to tackle intricate projects. We go beyond delivering services; at RBM Infracon Ltd, we aspire to be your strategic partner, offering innovative solutions that not only meet but exceed your expectations. From designing and installing mechanical systems to constructing critical infrastructure, we are committed to delivering exceptional results. Our unwavering commitment to quality is demonstrated through precision and integrity in every project, utilizing the latest technologies and best practices. Safety is a core value, ensuring a secure working environment. Prioritizing open communication, we tailor services to your requirements, aiming for long-term partnerships built on trust and mutual respect. Thanks to our valued clients and partners for their trust. We look forward to achieving remarkable milestones together, contributing to your journey of growth and prosperity.

About Our Company

RBM is a dynamic company with extensive experience in the edible oil industry, road project development, warehouse construction, and maintenance services. As a leading engineering, procurement, and construction (EPC) firm, we specialize in delivering turnkey solutions tailored to the specific requirements of our clients. Our comprehensive approach ensures seamless project execution from inception to completion, making us a trusted partner for diverse infrastructure needs. With a commitment to quality, innovation, and sustainability, RBM is dedicated to exceeding expectations and driving success in every endeavor.

RBM Infracon Limited is a premier Engineering, Procurement, and Construction (EPC) firm specializing in providing comprehensive solutions tailored to the unique requirements of the oil and gas industry. With extensive experience and a dedicated team of professionals, RBM Infracon Limited offers expertise in civil, electrical, and mechanical engineering, as well as specialized capabilities in skid fabrication.

Proficiency in Electrical Engineering

In the oil and gas industry, reliable electrical systems are crucial for powering operations and ensuring safety. RBM Infracon Limited offers a range of electrical engineering services, including:

***Design and installation of power distribution systems for offshore platforms, onshore facilities, and remote sites**

***Implementation of lighting, communication, and control systems to enhance operational efficiency and safety**

***Integration of renewable energy solutions, such as solar and wind power, to reduce environmental impact and operating costs**

***Maintenance and troubleshooting of electrical equipment to minimize downtime and ensure uninterrupted operations**

Expertise in Civil Engineering

RBM Infracon Limited excels in providing civil engineering solutions for the oil and gas sector, including:

- * Site preparation and grading for oil and gas infrastructure.
- * Construction of foundations for equipment and structures, such as drilling rigs, pump stations, and storage tanks
- * Installation of roads, access platforms, and other infrastructure necessary for project operations
- * Erosion control measures and environmental compliance to ensure sustainable project development
- * Rehabilitation and restoration of sites to mitigate environmental impacts post-project completion

Specialization in Mechanical Engineering

RBM Infracon Limited provides mechanical engineering solutions tailored to the specific needs of the oil and gas industry, including:

- *Design and fabrication of skid-mounted equipment for various applications, including metering systems, chemical injection units, and modular processing units
- *Installation of piping systems for fluid transport, including process piping, utility piping, and firewater systems
- *Fabrication and installation of pressure vessels, heat exchangers, and other process equipment to meet project specifications and regulatory requirements
- *Maintenance and repair of rotating equipment, such as pumps, compressors, and turbines, to ensure optimal performance and reliability

Skid Fabrication Expertise

RBM Infracon Limited specializes in the fabrication of skid-mounted equipment, providing turnkey solutions for oil and gas projects. Our skid fabrication capabilities include:

- *Custom design and engineering of skid-mounted systems to meet client requirements and project specifications
- *Fabrication of skids using high-quality materials and advanced manufacturing techniques to ensure durability and reliability in harsh operating environments
- *Integration of instrumentation, controls, and safety systems into skid-mounted units for seamless operation and compliance with industry standards
- *Testing and commissioning of skid-mounted equipment to verify performance and functionality prior to deployment in the field

Key Services for the Oil and Gas Industry

***Project management and coordination to oversee all aspects of EPC projects, from initial planning to final delivery**

***Procurement of materials, equipment, and services from trusted suppliers and vendors to ensure timely project execution and cost-effective solutions**

***Quality assurance and quality control to maintain the highest standards of workmanship and compliance with industry regulations**

***Health, safety, and environmental management to identify and mitigate risks and minimize the impact of project activities on personnel and the environment**

***Commissioning, startup, and ongoing support services to optimize the performance and efficiency of oil and gas facilities throughout their operational life cycle**

Conclusion:

RBM Infracon Limited is a trusted partner for oil and gas companies seeking comprehensive EPC solutions, including civil, electrical, and mechanical engineering expertise, as well as specialized capabilities in skid fabrication. With a commitment to quality, safety, and innovation, we deliver reliable and cost-effective solutions that meet the evolving needs of the oil and gas industry, helping our clients achieve their project goals efficiently and sustainably.

Our Services

Piping Services

RBM Infracon specializes in precision Piping Services, offering fabrication and erection solutions for carbon steel (CS), stainless steel (SS), and alloy steel systems. Our skilled team ensures industry-standard installation and alignment, utilizing advanced techniques for aboveground and underground projects, ensuring durability, safety, and efficiency.

Plate Work

RBM Infracon's Plate Work services provide comprehensive solutions for fabricating and erecting platerwork structures, including ducts, hoppers, and chutes. Our skilled craftsmen deliver meticulous construction, ensuring elements meet specific client requirements with a focus on superior quality and performance.

Our Services

Heater Operation

In Heater Operation, RBM Infracon excels as a reliable partner for top-notch Operation and Maintenance (O&M) services. Our dedicated team specializes in keeping heating systems optimal, ensuring uninterrupted warmth and comfort in residential, commercial, and industrial spaces.

Drilling and O&M Services of Crewed Wells

RBM Infracon extends its expertise to drilling and Operations and Maintenance (O&M) services for crewed wells. With a wealth of experience and a commitment to excellence, we manage intricate processes to ensure the reliability, safety, and efficiency of well operations, meeting diverse client needs in this critical domain.

Our Services

Structural Steel Work

Expertise in civil construction, coke plant maintenance, erection of plants and equipment, blasting cleaning, painting, insulation, refractory work, and more.

Plate Work Fabrication and Erection

Offering comprehensive services for the fabrication, supply, and erection of platework structures with a focus on superior quality and performance.

Rail Wagon Loading Services

Efficient and reliable rail wagon loading services to streamline logistics and transportation, maximizing loading capacity and ensuring safety compliance.

Turnaround Services

Specializing in turnaround services for timely and efficient management of maintenance and refurbishment activities across various industries.

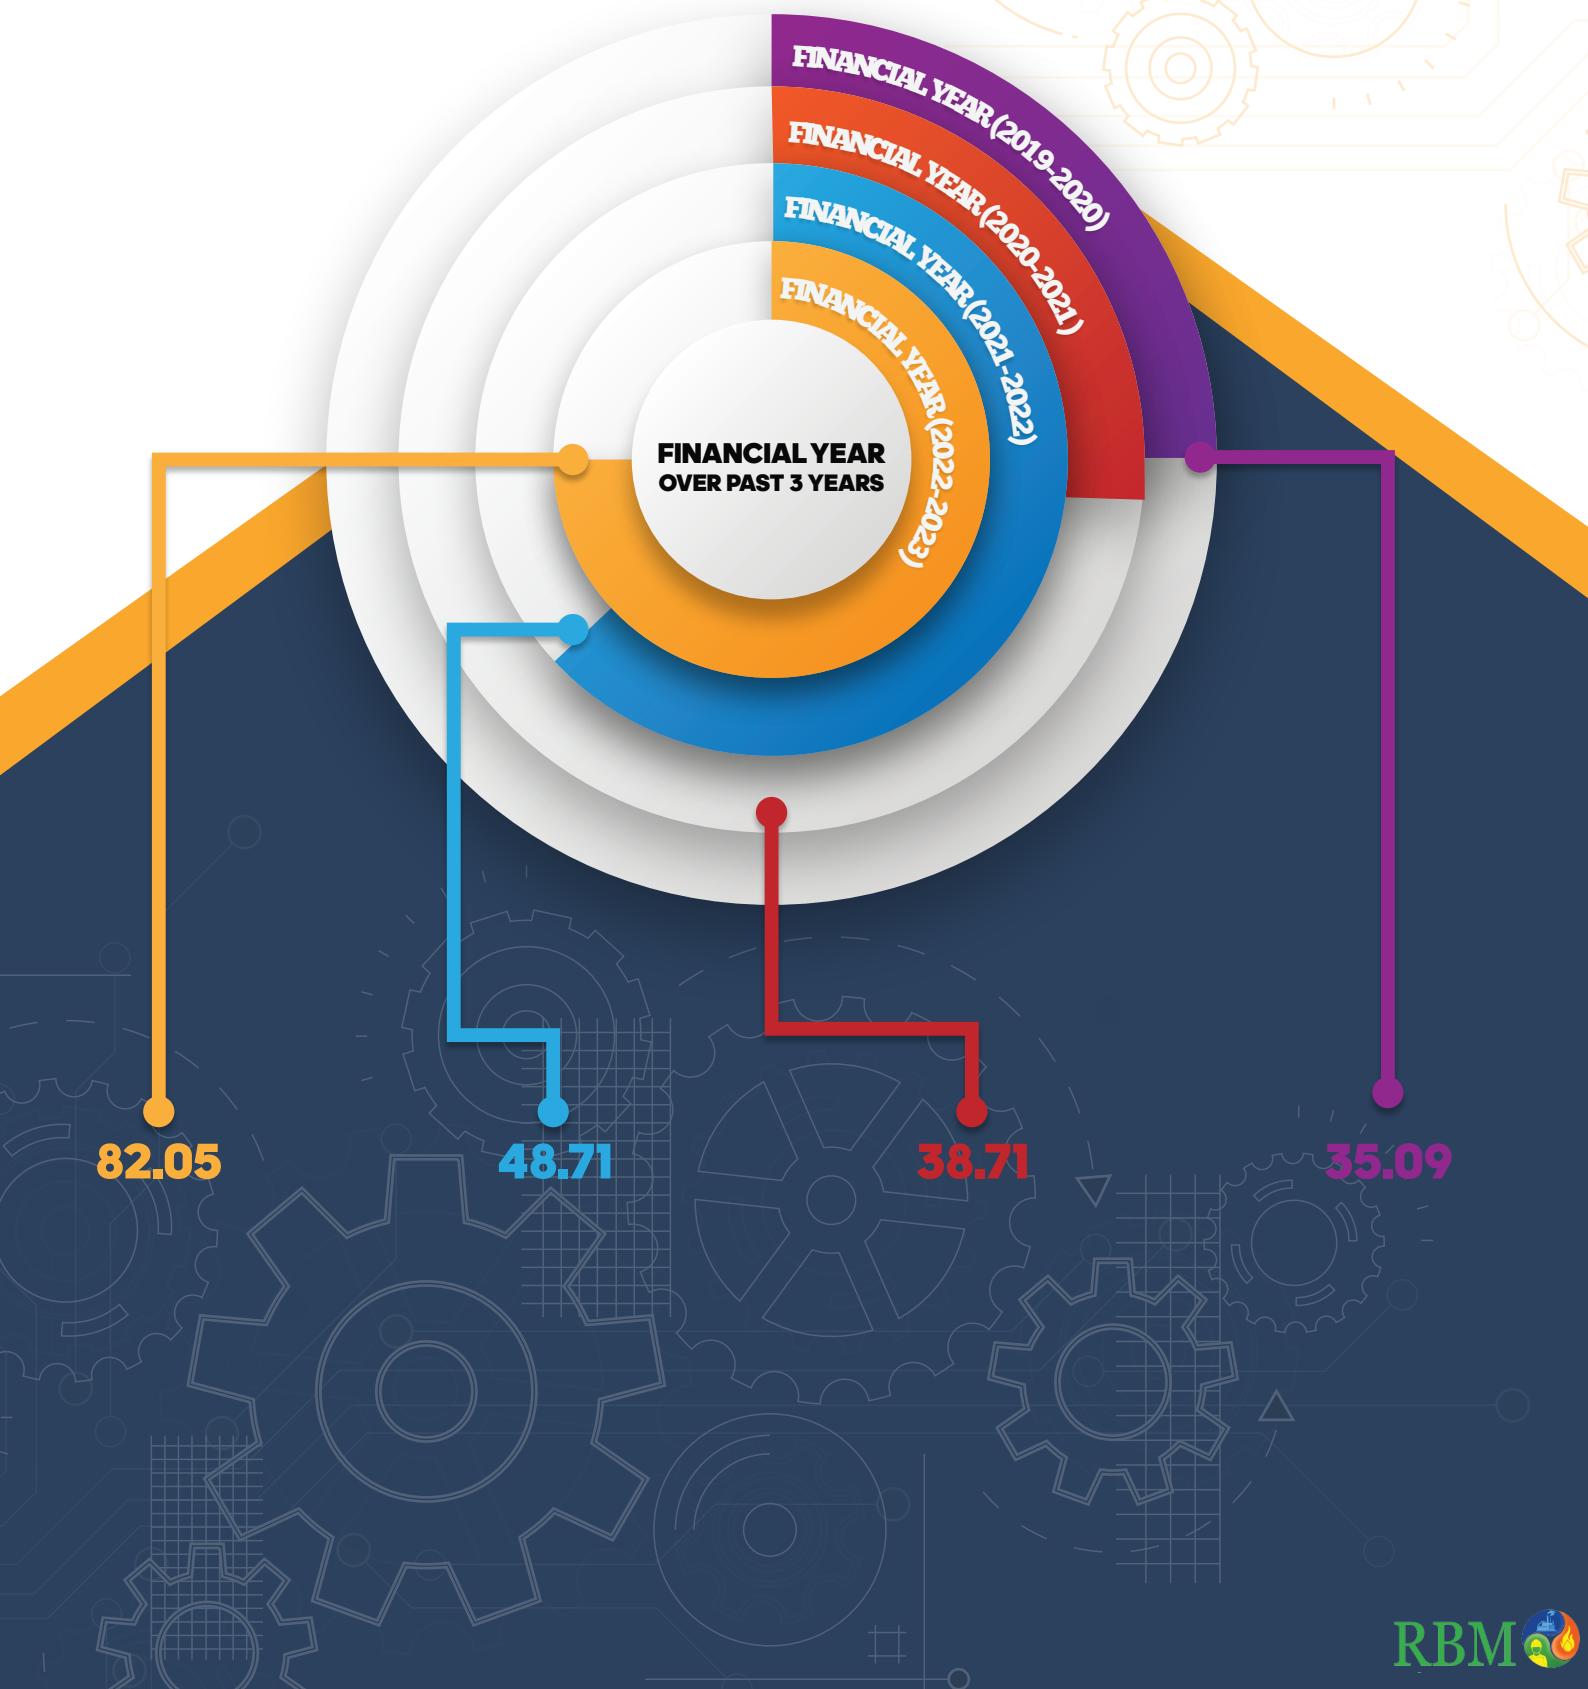

Manpower and Equipment Solutions

Dedicated to being your trusted partner, providing customized solutions to meet specific manpower and equipment requirements, ensuring seamless project execution and operational

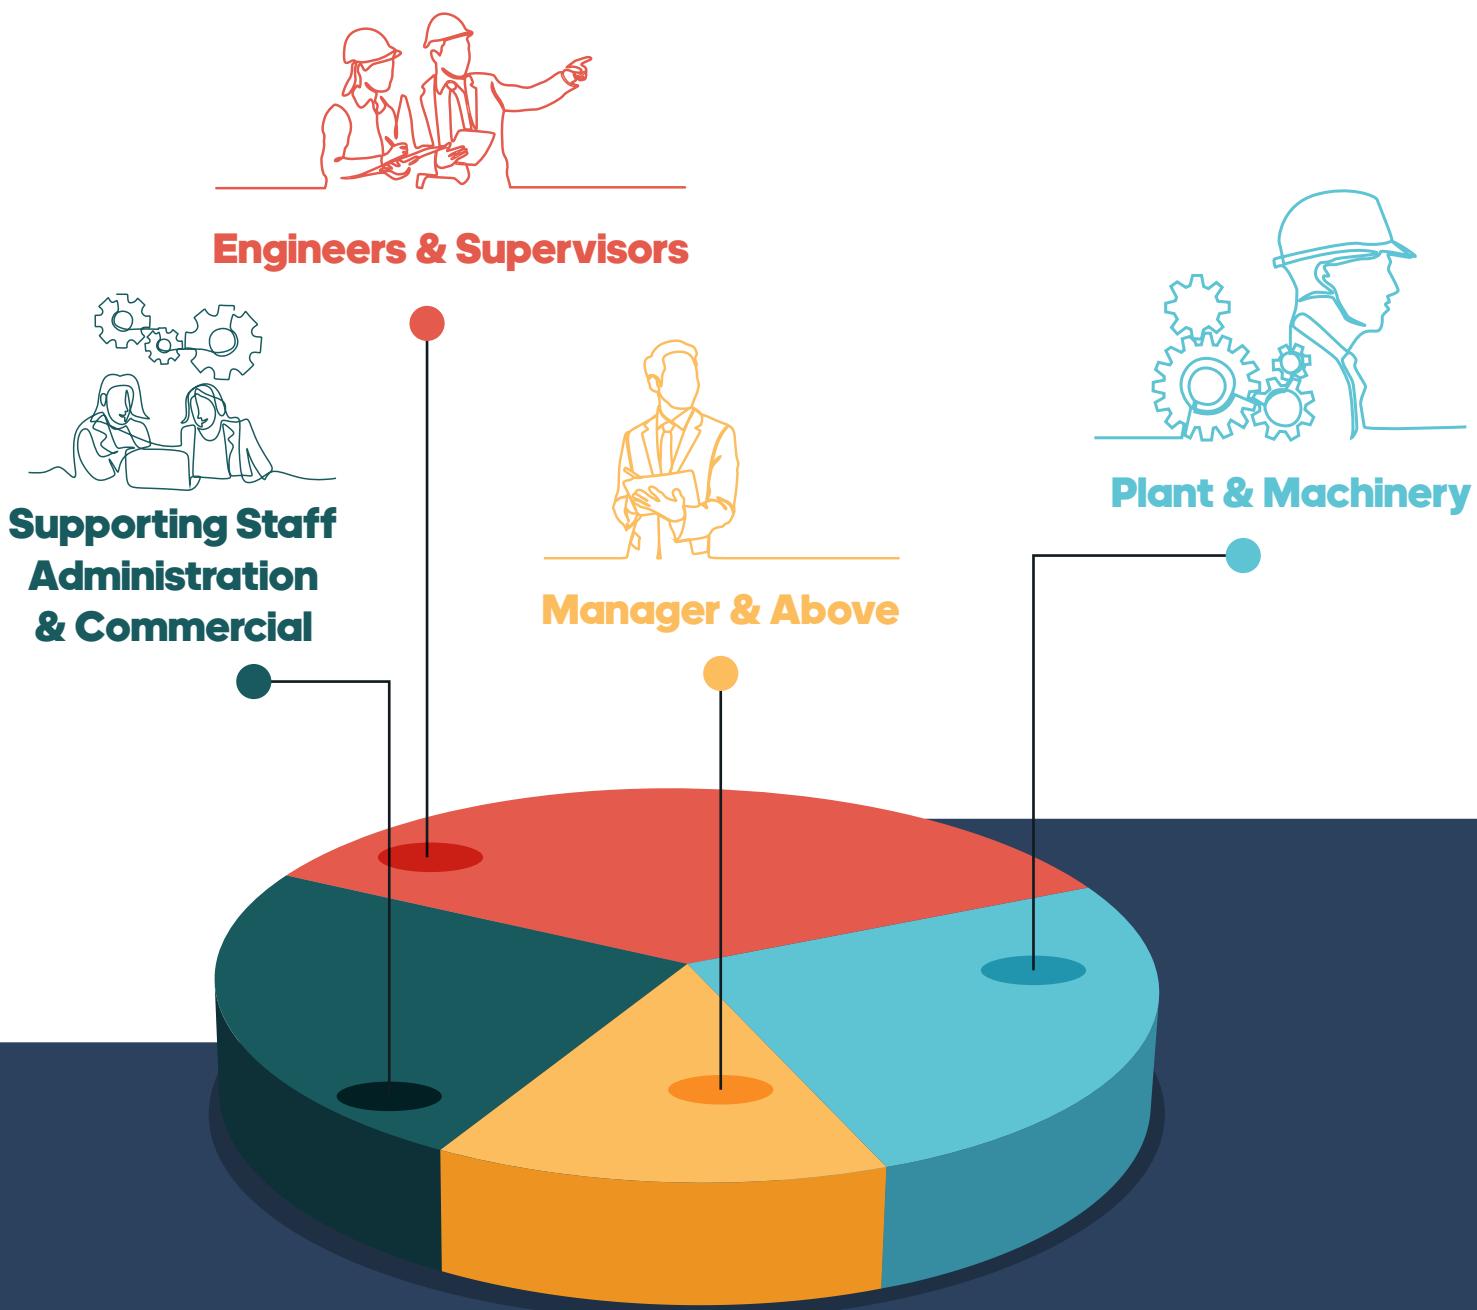

Financial Performance Over the past three years

Over the past three financial years, M/S-RBM Infracon has demonstrated a consistent and noteworthy performance in terms of turnover. The financial reports for this period reveal a robust financial standing, showcasing sustained growth and stability.

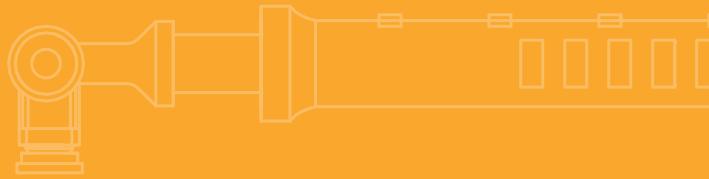

Staff Details

The staff details provide a comprehensive overview of the workforce composition and dynamics within M/S-RBM Infracon. Analyzing this information sheds light on the company's human resource management, organizational structure, and the skill sets contributing to its operational efficiency.

Our Valuable Clients

“

**WE ARE INVESTING IN THE FUTURE
ENGINEERING FOR A SMARTER WORLD.**

Client Care

In the dynamic realm of construction projects worldwide, a multitude of challenges consistently arise, spanning from ambiguously defined objectives and budgetary constraints to the intricacies of time and hazard management. Armed with over 24 years of invaluable experience, we have navigated through a diverse array of issues, recognizing that conflicts are an inherent aspect of nearly every project's journey.

One recurring concern that often takes center stage revolves around the meticulous execution of the quick-closeout procedure. This involves delving into the best practices associated with this critical phase and understanding the essential resources required to ensure the seamless functioning of the space post-move-in. Acknowledging the imperative nature of continuous observation for newly established spaces, RBM Infracon Limited's Client Care team assumes a pivotal role in the final 5% of your project, diligently ensuring optimal efficiency.

Our committed team is devoted to the meticulous confirmation that your space operates precisely as intended, running at full speed post-closeout. Why do we place such emphasis on this final phase? Simply put, we firmly believe that your project's closeout plan possesses the transformative power to either elevate or jeopardize the entire endeavor, with far-reaching implications that extend well beyond the completion date. At RBM Infracon Limited, we understand the significance of a well-executed project closeout and strive to make a lasting positive impact on the overall success of your undertaking.

Our Client Services Include

WARRANTY EVALUATION

Conducting thorough reviews to validate project warranties, ensuring comprehensive coverage and compliance.

CLOSEOUT DOCUMENTATION SUBMISSION

Compiling and submitting all necessary documents, providing a comprehensive operational record, including drawings, certificates, manuals, warranties, and

ON-SITE VISITS

Arranging visits to discuss progress, address concerns, and facilitate effective communication.

PROJECT COMMISSIONING AND CLOSEOUT

Overseeing a meticulous process, emphasizing efficient resolution of pending tasks and ensuring successful completion of all scope-related work.

FINAL PREMISES DEFICIENCY REPORT

Crafting a conclusive report identifying remaining issues, fostering collaboration for prompt resolution.

PROJECT PERMIT CLOSURE

Concluding all permits, adhering to regulations for a clean and compliant project closure.

Past 5 years HSE Performance

In the last half-decade, RBM Infracon Limited, a prominent construction company, has showcased an outstanding performance in Health, Safety, and Environment (HSE), achieving remarkable results with a commendable record of zero fatal cases. The company's unwavering commitment to upholding the highest safety standards is evident in its consistent track record of accident-free operations.

RBM Infracon Limited has proactively implemented robust safety protocols, comprehensive training programs, and advanced technology to ensure the well-being of its employees, contractors, and all stakeholders involved in its projects. Through these measures, the company has successfully minimized the risks associated with its operations.

The firm's focus on proactive risk management and a commitment to continuous improvement have led to a significant reduction in the number of accidents and injuries on its worksites. RBM Infracon Limited's achievements in HSE not only underscore its dedication to preserving human life and fostering a culture of safety but also emphasize its capability to deliver construction projects of the highest quality and standards.

Introduction to Bundle Puller & Hydrojetting Machine

Bundle Puller

We provide a variety of services related to Bundle Puller equipment. Our skilled technicians are well-versed in the installation, operation, and maintenance of Bundle Puller systems. Their expertise ensures the safe and efficient extraction and replacement of heat exchanger bundles. Recognizing the importance of minimizing downtime and maximizing productivity, we prioritize delivering high-quality services in a timely manner.

Hydrojetting Machine

Our Hydrojetting Machine services are crafted to offer comprehensive and efficient cleaning solutions for a range of industrial applications. With cutting-edge technology and state-of-the-art equipment at our disposal, our team provides high-pressure water jetting services. This specialized service is designed to eliminate stubborn deposits, scale, and contaminants from various surfaces, pipes, and equipment. We place a strong emphasis on safety, environmental sustainability, and achieving exceptional results, all geared towards assisting our clients in optimizing their operations.

Rental Services

In addition to our comprehensive service offerings, we provide flexible rental solutions for Bundle Puller and Hydrojetting Machine equipment. Our rental fleet comprises a wide range of reliable and well-maintained machinery, allowing our clients to access the latest technology without the need for significant capital investment. Our team assists in

Our Policies

Quality Policy

RBM maintains a quality system that aligns our products and services with the highest standards. Our quality control procedures and referenced documents ensure the application of quality principles throughout the project. The Quality Assurance Department plays a pivotal role in company-wide quality management activities, establishing and implementing procedures for total quality management. We focus on understanding and meeting client needs, continuous improvement, compliance with industry standards, and minimizing environmental impact.

Human Resource Policy

Our Human Resource Policy outlines guidelines for RBM employees, emphasizing a fair and inclusive work environment. Recognizing employees as our most valuable asset, we commit to providing a safe, inclusive, and supportive work environment. The policy includes commitments to personal development, equal opportunities, compliance with statutory laws, and ongoing training programs.

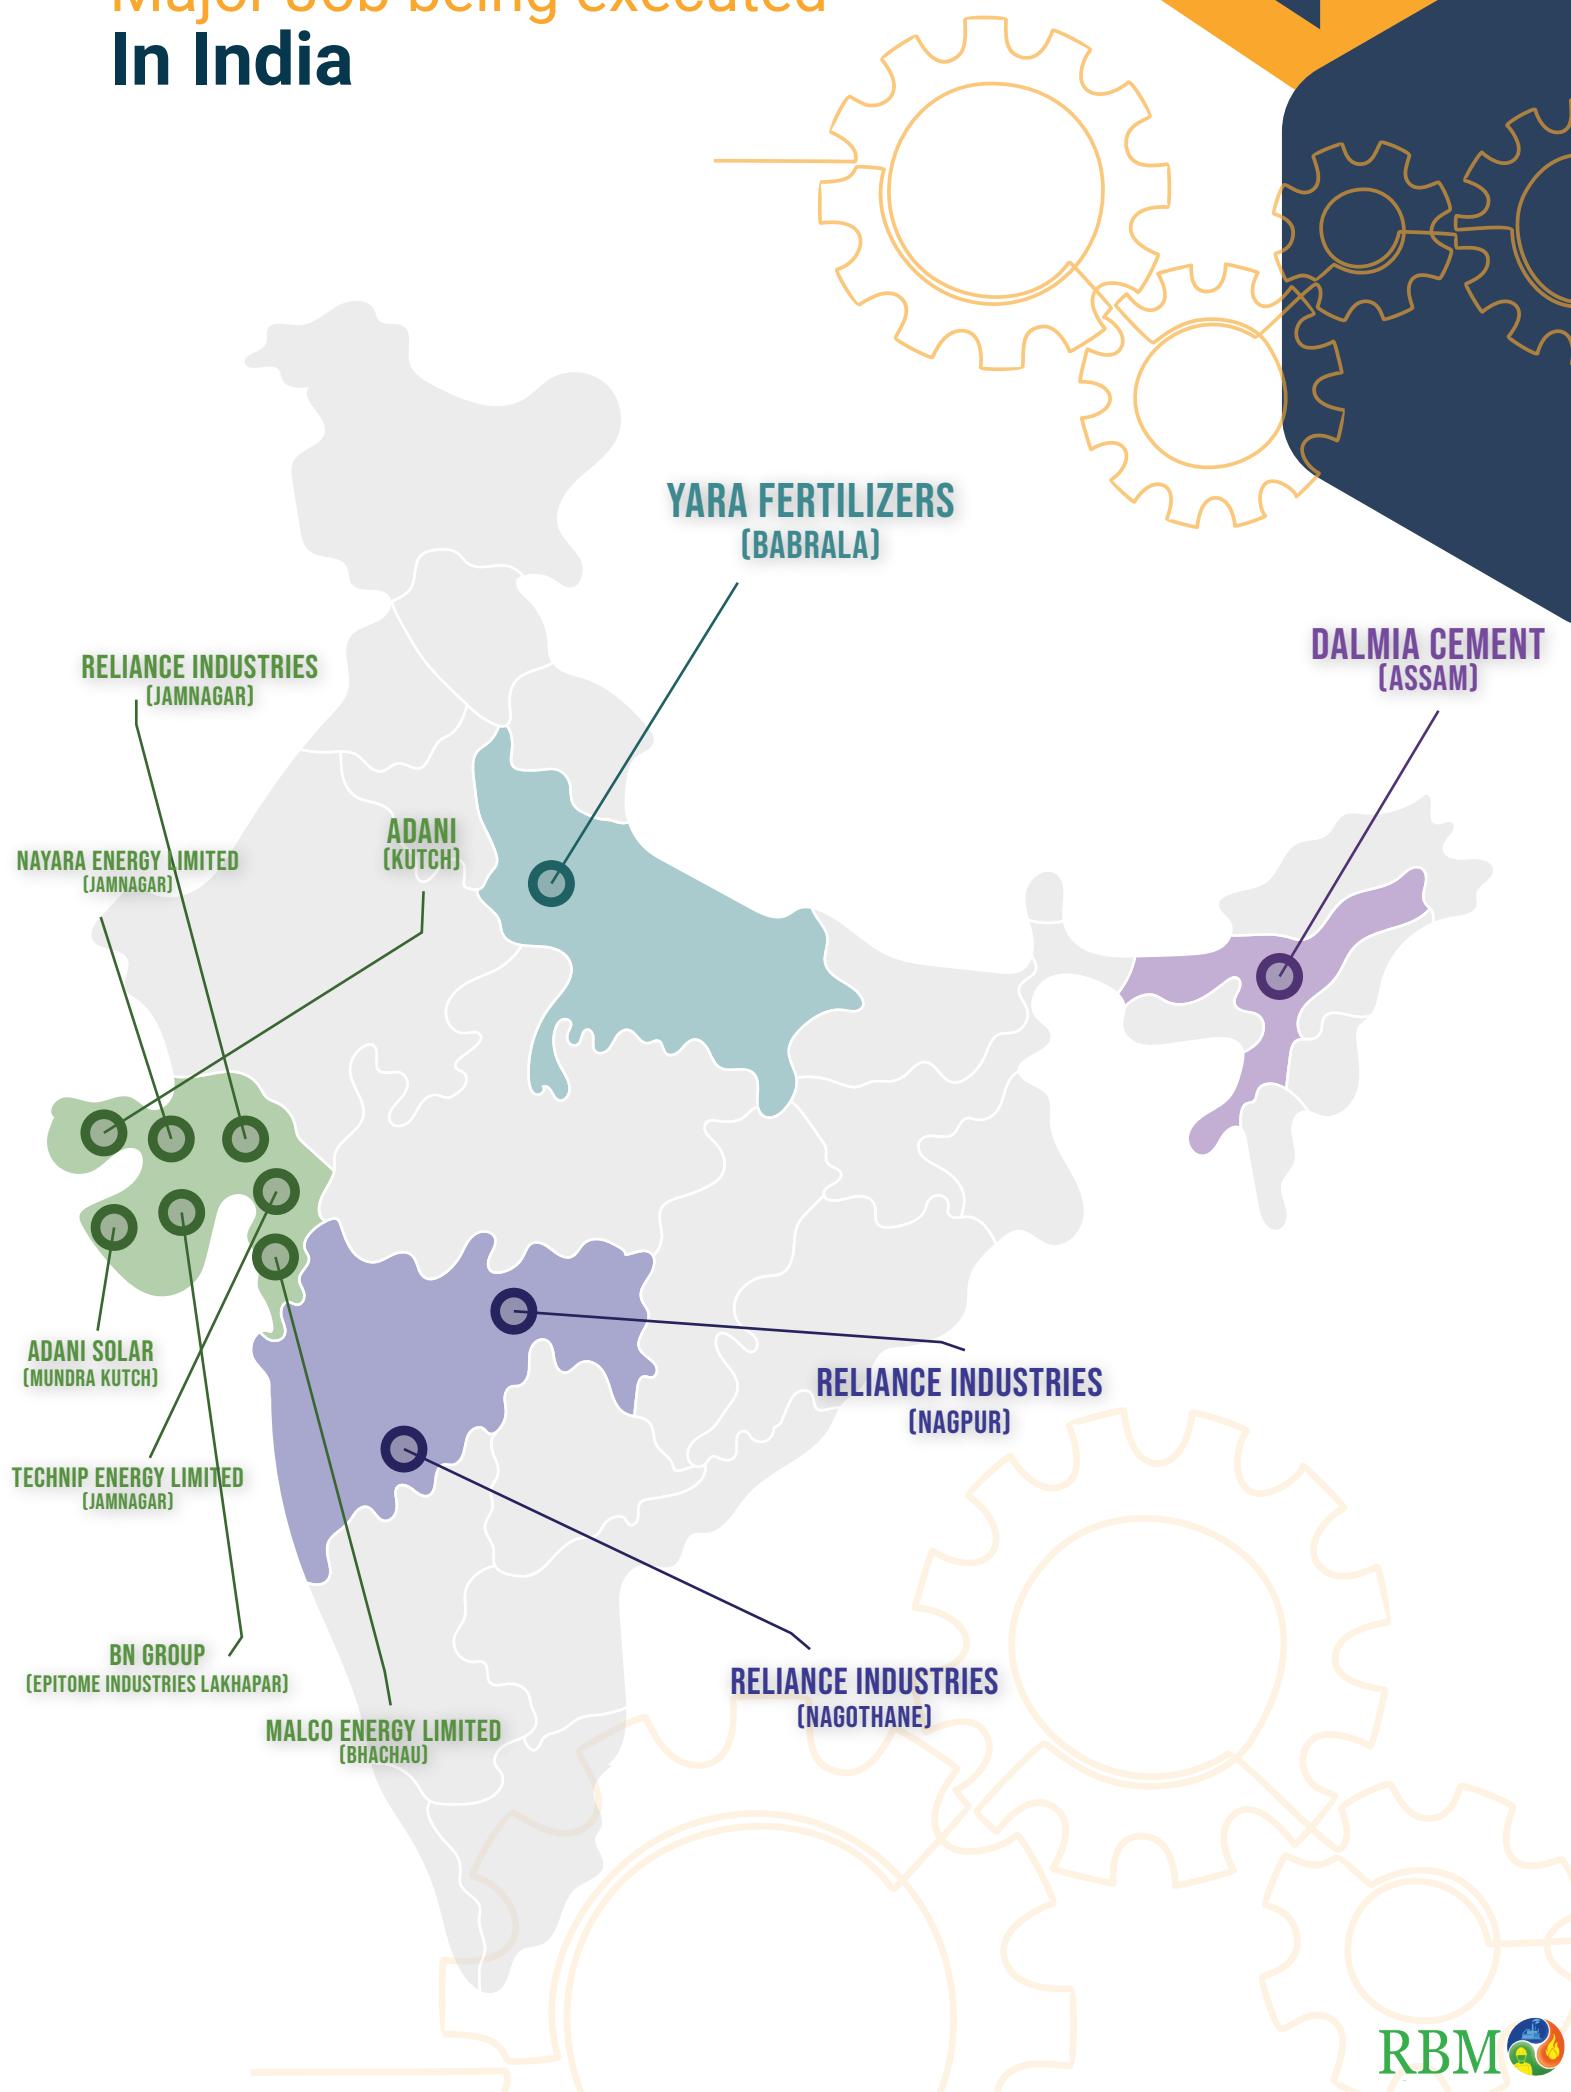

Health, Safety, and Environment Policy

Recognizing our responsibilities as an employer, RBM is committed to ensuring a safe and healthy environment for project execution. Following international norms, we maintain safe working conditions and prioritize a nature-friendly environment. Thorough risk assessments, effective control measures, and engagement at all levels in health, safety, and environmental matters underscore our commitment. RBM actively strives to minimize its environmental impact, engaging with stakeholders to understand and fulfill their needs and expectations.
